

Muscadet Sèvre & Maine Cru Clisson Hugues Brochard

LOCATION : The vines grow on the south-facing slopes of the Sèvre and Maine rivers in the commune of Maisdon sur Sèvre on the southernmost part of Armorican Massif.

TERROIR : The Cru Clisson's vines are over 40 years old. This plot of vines, covering an area of one hectare, thrives in a soil of clay combined with smooth pebbles on a granite bedrock, whose good drainage qualities endow the wine with superb minerality.

WINEMAKING : The grapes of natural richness, picked by hand, undergo a traditional vinification process.

At least two years' ageing on the lees helps make this an outstanding wine combining aromatic complexity, fleshiness and elegance.

VARIETALS : Melon B. 100%

SERVING : Serve lightly chilled (12-13°C).

Decant two hours before drinking to better appreciate the aromas.

FOOD PAIRINGS : Enjoy with fish in sauce (pike-perch in beurre blanc) or grilled, a crab terrine, smoked salmon or poultry in cream sauce.
