

Cabernet d'Anjou Clin d'Oeil

AOC Cabernet d'Anjou, Vallée de la Loire et Centre, France

Clin d'Oeil, the discovery brand for Loire appellations.

THE VINTAGE

High Environmental Value from the 2021 vintage

LOCATION

The vines extend over the hillsides of the Saumurois and Anjou area.

TERROIR

The main characteristic of the region is its clay-limestone soil: this soft white rock called tuffeau allows the vine to put down good roots and a moderate water supply.

IN THE VINEYARD

The plots are selected at the approach of the harvest, in August and September, for their ability to offer grapes of beautiful maturity and rich aromas of fresh fruit (strawberry and grapefruit). An early harvest is carried out to preserve a tasting balance.

WINEMAKING

Direct pressing to extract a nice aromatic potential. Vinification in thermo-regulated vats then bottled in spring to preserve freshness and fruit flavours.

VARIETAL

Cabernet franc 100%

SERVING

Serve chilled (8-10°C).

VISUAL APPEARANCE

Candy-pink color with pale pink highlights.

AT NOSE

Intense fruit aromas with hints of red berries and rose, with a fresh mint finish.

ON THE PALATE

Tender, round and suave, with a liveliness that offsets the mellowness and refreshes the finish with notes of strawberry and redcurrant.

FOOD PAIRINGS

It goes well with starters (melon and country ham), Asian cuisine and tart tarts (apricot, mirabelle plum, rhubarb).
